### Greatest Opportunity with SAR:

To be the voice for the community on real estate and especially the current housing inventory and housing affordability issues.

### Biggest threat to the MLS industry:

Allowing agents to access the MLS without being affiliated with the Association of REALTORS. The Code of Ethics gives us an opportunity to all cooperate together fairly.

Primary Motivation to be an SAR Director:

To help the Association develop new leaders and assist in transitioning forward through great change. Mentoring new members and helping them attain a baseline of professionalism will help us all going forward by elevating the standards of the profession.

Leadership Strength and Skills:

Team player and hard worker. I am organized and enjoy paperwork, so I am good at creating guidelines and rubrics for achieving goals set forth by committees. Having only been involved in this industry for 10 years, I bring a fresh set of eyes to the way we do things. I have served on a number of non-profit boards over the years and am able to pull from those many experiences and apply it to the Spokane Association of REALTORS.
